

# 2023 Lfteroff **Summer** Internship

Welcome to the extraordinary world of medical technology innovation!

Fogarty Innovation is a nonprofit educational incubator that hosts multiple technology start-ups in a state-of-the-art facility in Silicon Valley. Our Lfteroff Internship program is an immersive, hands-on experience designed to introduce college and graduate school students to careers in medical innovation. Interns learn what it takes to bring a new technology to market by working with our companies and interacting with experts across the early-stage innovation ecosystem. They also experience the real-world application of these technologies by visiting large and small healthtech companies, meeting with physicians, and shadowing procedures at El Camino Health's Mountain View hospital. Throughout their stay, interns also work closely with our staff of industry veterans, who provide mentoring and career guidance.

The 2023 Lfteroff Internship is a paid, 8-week program that runs from June 19 to August 11, 2023. Applications open on November 21, 2022, and close on January 22, 2023.
